Growers of Tested Berry Plants

Friends—

If you are interested in strawberries, raspberries or any other small fruit, why not see us?

We are ready with the plants that produce the goods, and have already taken many orders for our spring shipment, with more coming every day. We aim to satisfy every customer, taking the same pains packing and shipping a small order as we do a large one.

If you are thinking of strawberries you certainly could find something to suit you in our 5 leading spring varieties: the Senator Dunlap, Gibson, Collins, Kellogg's Prize and Charles First, at 60 cents per 100 or \$4.00 per 1,000.

We also have the Progressive Everbearing, which is a great favorite. From plants that were set last spring, 1921, this variety produced, for us, this season 6,000 quarts per acre. They will bear continually from July 1st until the ground freezes, the heavy foliage protecting them from frost. These sell for \$2.00 per 100 or \$15.00 per 1,000.

We know you will not be dissatisfied in any of the above varieties as we do not carry anything in stock except those which we have tested out and are thoroughly acquainted with.. All plants are state inspected.

In the Red Raspberries we have the St. Regis Everbearing at \$6.00 per 100 or the Cuthbert at \$3.00 per 100.

Black Raspberries at \$4.00 per 100 in 3 varieties: Plum Farmer, Cumberland and Greg.

✓ Elderado and Sensation Blackberries, good strong plants for \$4.00 per 100.

✓ Concord and Niagara grape vines also Moores Early and Worden all two year, heavy grade No. 1 stock.

We guarantee all express shipments to reach destination in good condition, and will make good any damaged stock upon receipt of a statement from your express agent telling us the extent of the damage.

If you are needing anything in our line we would be glad to hear from you in regard to any details not mentioned here.

Any orders received will have our prompt attention and will reach you at the right time for spring setting.

Cordially yours,

L. G. RATHBUN & SON.
